**01573 440761**

The brand-new TankAlarm™ from Alarms for Farms has been developed specifically to combat the epidemic of diesel and oil theft. It senses a rapid drop in the level in your tank using state-of-the-art ultrasonic technology and relays the alarm instantly to a receiver in the house. Transmitting range up to 250m. See this and the rest of our award-winning range of wireless security and monitoring equipment at [www.alarmsforfarms.com](http://www.alarmsforfarms.com) or call us on **01573 440761**.
